

### SUPPLY OF ELECTRIC POWER TO VESSELS

The following prices apply for vessels with no special agreement with Ports of Stockholm.

Ports of Stockholm provides electric power (green electricity) to vessels in port after considering each application. The following prices apply for the supply of electric power including energy tax, fees of power main and power certificate, with the exception of self-connected electricity at the pontoons at Strandvägen.

<b>Electric power</b>	<b>Price/unit</b>
Price per started kWh	<b>1.88 SEK/kWh</b>
Minimum charge	<b>575 SEK</b>
Installation and connection work	Ports of Stockholm´s cost price

### SUPPLY OF ELECTRIC POWER TO YACHTS

Electricity fees are based on no electrician being required and connection instead being made by the vessel owner.

<b>Electricity connection</b>	
230 Volt	<b>192.50 SEK/day</b>
16-32 Amp	<b>327.79 SEK/day</b>
63 Amp	<b>969.74 SEK/day</b>

All prices excluding VAT.

### TERMS AND CONDITIONS OF SUPPLY

Ports of Stockholm/Supplier supplies electricity to the Customer via a low voltage grid and has no power grid concession for the electricity grid. As Ports of Stockholm/Supplier has neither a power grid concession or is a commercial provider of electricity in accordance with the legal definition of the term (1997:857) the statutory provisions do not apply, for example with regard to the obligations of electricity providers or the obligation to supply electricity from different electricity providers. Instead the terms in this price list apply, in addition to the written terms agreed between the respective parties.

The purchaser must comply with the instructions provided by Ports of Stockholm personnel with regard to the supply of electrical current and must provide the assistance required to transfer the necessary materials aboard the vessel and ashore.

The purchaser must provide details of the amount of consumption in accordance with the instructions provided by Ports of Stockholm.

The customer is responsible for connection to the electricity connections of the Supplier in accordance with the instructions provided by the Supplier. The Supplier bears no cost for connection, installation or maintenance and is not responsible in any other way for the Customer's electricity connection.

The Customer is responsible for ensuring that the electricity connection is secured under lock and key to prevent unauthorised use.

The Customer may not transfer electricity supply rights to another and may not either transfer electricity to another. In the event of the Customer transferring electricity to another - without having first obtained written consent from the Supplier - the Supplier has the right to immediately terminate the supply of electricity to the Customer.

Ports of Stockholm bears no responsibility for damages that may be incurred by the purchaser in connection with the supply of electrical current, other than in cases where Ports of Stockholm personnel are found to have been negligent. Remuneration in every case is limited to the direct damage incurred and there is no entitlement to claim for loss of earnings/profit or other indirect damages.

For electricity agreements that are valid until further notice or where no specific time period is specified the Customer must provide 30 days advance notification of termination of the agreement. Ports of Stockholm/Supplier has an obligation to supply electricity to the Customer during the period that the Customer has valid permission from Ports of Stockholm to berth at a quay area at the port where electricity provision to the vessel is available and where the Customer fulfils payment obligations to Ports of Stockholm.
